- **Banks** = *The History of Martha's Vineyard, Volume III, Family Genealogies* by Dr. Charles Banks, c. 1925. This well-documented book is an important and valuable work for Williamsburg genealogists because many families came here from Martha's Vineyard between 1780 and 1810. A number of these families were incorrectly reported to have come from Nantucket in the Deming history of Williamsburg. Banks documents their early histories and makes it plain that Deming's informants were mistaken.

Mrs. Warner's reason for maintaining this personal record is unknown.
